

► Features

- Flexible structure for system integration & connectivity
- Wide variation of compatible modules available
- Stores 12 units of CASY modules on front & rear
- 19" Rack mountable (2 HE)
- 120 mm usable depth
- Pre-threaded mounting profile for easy assembly
- Aluminum extruded construction with steel side ears
- Structured and scratch resistant black powder coating

► Description

The CASY001 is a 19" rack mountable chassis which can be fitted with 12 modules from the CASY range. The flexible and modular structure ensures a maximum versatility, allowing to adapt the system to each project specific requirements. Possibilities are ranging from audio, video and data interconnection, to power distribution, internal rack supplies and many more.

The aluminum top and bottom construction features pre-threaded hole inserts allowing module installation with a maximum of 12 units on both front and rear side. Modules can be fixed inside the unit using the included M3 screws, while the side ears are fitted with holes for fixation to a 19" equipment rack. The side ears are constructed out of cold-rolled steel with internal pillars for chassis grounding.

The overall construction is finished in a black (RAL9004) structured and scratch resistant powder coating.

CASY
series

► Technical Drawing

► Specifications

PROPERTY	VALUE
Module units	12 x front side & 12 x rear side
Width	483 mm
Height	88,1 mm
Depth	120 mm
Weight	1.48 Kg
Construction	Alu extrusion with steel side ears
Module assembly	Pre-threaded M3 screw holes
Mounting	19" Rack mount (2HE)
Finishing	Structured powder coat
Colour	Black (RAL9004)

► Optional Accessories

ARTICLE	DESCRIPTION
CASY021/B	12 space strain relief
CASYx0x	Blind / connector hole plates
CASYx2x	XLR connector plates
CASYx3x	Audio signal connector plates
CASYx4x	Loudspeaker connector plates
CASYx5x	Video connector plates
CASYx6x	Data connector plates
CASYx8x	Power connector plates
CASYx9x	Other plates
